### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mathew Moffa Reg. No. 58,860 on 10 June 2008.

The application has been amended as follows:

#### **IN THE CLAIMS:**

In claim 11, line 2, "with" has been changed to --with claim 1--.

The above change to the claims has been correct the dependency of claim 11.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The instant invention is directed towards a novel improvement in the axial flow impeller art. Specifically, Applicant has claimed that the impeller blades include box shaped portions that define a seat having a diameter greater than the diameter of the housing of the electric motor that drive the impeller.

Prior art such as US Patent 6,659,724 to Takeuchi et al. shows the hub of the impeller being sized in a way that the motor fits within a "seat" portion and US Patent 3,334,807 to McMahan shows the fan blades defining a diameter larger than diameter of the motor housing

Art Unit: 3745

(See Figure 2). None of the known prior art, however discloses or suggests a box-shaped portion included on the impeller blade that would define a seat as claimed by Applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
